### About "kate i toe"

"Kate i toe" is a portrait art unit of made up of a Japanese couple, Kazue and Satoshi Umezu since 2014. Satoshi is responsible for the line drawings, while Kazue is in charge of coloring. In Japan, our gentle and heartwarming paintings have gained support from many people. Many works were delivered to various customers such as shops, companies, financial institutions, governments, and many private customers. In 2017, we won the jury award at "*Salon des Beaux Arts*" in France. And, International activities start in the same year. And in 2019, We opened a portable shop in *Global Village* by invited from *Electromed Co.,Ltd.*

## Our wish

The rainbow shades which we employ frequently in our paintings represent peace, equality, and diversity. The many different colors included within the rainbow can be likened to each person's individuality. We sincerely wish that the people of the world may accept each other, cooperate, and continue to interact in positive ways.

### Activity concept

Our work is based on the concept of "Strengthening connections between people" It is our hope that our paintings may act as amulets, protecting the ties within each community.
